Shariar Hasan

Dhaka, Bangladesh | shariarhasan872@gmail.com | +8801712877099 | linkedin.com/in/shariarhasan | github.com/Utchash007

Education

Bangladesh University of Professionals, B.Sc. in Information & Communication Engineering | CGPA : 3.59

Experience

Intern, DataSoft Systems Bangladesh Limited   Dec 2024 – Jan 2025
- Developed a machine learning-based system to detect and extract structured data from PDF documents, integrating the model into a backend built with Django.
- Utilized MLflow to manage the machine learning lifecycle, including experiment tracking, parameter logging, and model versioning.
- Designed and implemented a user-friendly React front-end to streamline manual PDF data processing.

Intern, Learnathon 3.0 (Virtual Internship Program)   Jan 2025 – Apr 2025
- Contributed to the development of full-stack web applications using React, Django, and Django REST Framework (DRF) in a collaborative team environment.   Project Repository
- Implemented GitHub Actions for CI/CD to automate testing and deployment workflows.
- Enhanced skills in backend API development, frontend integration, and team-based version control with Git.

Achievements

- 8th place at **MIST Independence Day Programming Contest**, 2023
- Honorable Mention at **ICPC Asia Dhaka Regional Onsite Contest**, 2023 & 2024   ICPCID
- **Codeforces Pupil** | Max Rating: **1201**   codeforces.com/profile/Shariar67
- **CodeChef 2 Star** | Max Rating: **1453**   codechef.com/users/utchash_007
- Solved **1000+ problems** on Codeforces, CodeChef, and LeetCode
- **Participation:** BUET IUPC 2023 and IUT 11th National ICT Fest Programming Contest 2024

Projects

NovelNest   Utchash007/NovelNest
- Full-stack novel browsing platform using Django REST and React.
- Implemented JWT auth and dynamic routing based on user roles.
- Managed user sessions and state securely across frontend and backend.

American Sign Language Detection App   Utchash007/American_Sign_Language_Detection_App
- Built a sign language detection system using Python.
- Trained a CNN from scratch using Google Colab.
- Developed real-time detection web app using Streamlit and static image detection with Gradio.

Extracurricular Activities

Head of Competitive Programming, BUP Infotech Club   Mar 2024 – Present
- Supervise training for juniors in algorithmic problem solving.
- Organize and host weekly programming contests.

Skills

Languages: C, C++, Python, SQL, HTML, CSS, JavaScript.
Frameworks & Libraries: PyTorch, TensorFlow, Django, React, Streamlit, Gradio, Seaborn, Polar.
Databases & Tools: MySQL, PostgreSQL, MongoDB, Git, GitHub, Basic Linux, Docker.
